When Two Respectful Families Unite

Both our families had been searching for an alliance that honored our traditional Tirole Kunbi heritage while understanding our progressive educational backgrounds. When Rahul’s father unlocked our profile on KunbiVivah, what immediately caught their attention was the transparent verification and detail regarding Gotra and Kuldaivat.

Our horoscopes matched with 31.5 Gunas, and the initial family meeting in Betul felt natural, warm, and uplifting. When Rahul and I spoke privately, we connected instantly over our passion for community service, reading, and simple family life.

Within six months, our engagement was solemnized, followed by a grand wedding celebration in Nagpur attended by over 800 community members. We are deeply grateful to KunbiVivah for bringing our worlds together!
