Bridging Distances with Shared Values

Working in fast-paced IT and finance careers made finding time for matrimonial searches challenging. When our parents recommended KunbiVivah, we appreciated how easy it was to filter profiles by education, profession, and native district.

After an initial video call arranged by our parents, we spent several weeks getting to know each other’s aspirations, family ties, and outlook on balancing work and marriage. There was complete clarity from day one.

Our wedding took place in Bhopal with all sacred Kunbi rites, amidst the blessings of four generations of family members.
